# FORWARD CONTROLS

( FORWARD CONTROLS ARE AVAILABLE WITH ANY STYLE OF SHIFT & BRAKE ARMS, & ANY FOOT & TOE PEG STYLE )

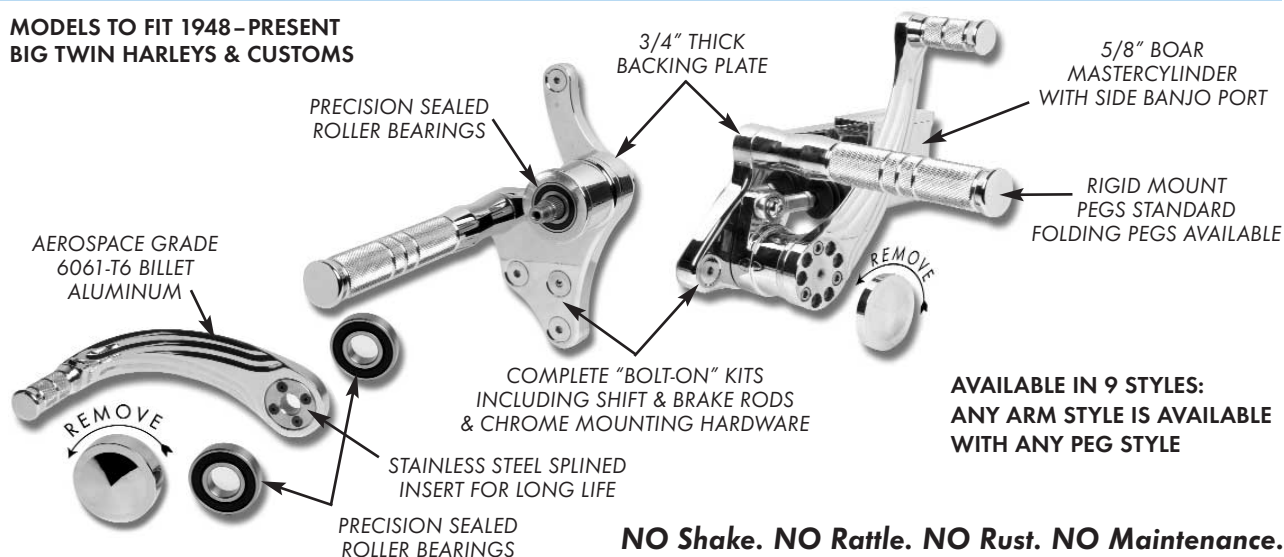

## FORWARD CONTROL ARM SELECTIONS

**Accutronix Forward Controls** are unique in that any Shift and Brake Arm style can be combined with any Foot Peg and Toe Peg style for any model of bike. This feature creates a unique "custom fit" set of "custom designed" Controls, fitting your personal style. Tell us what bike you have, what Arm you want, what Folding or Rigid Foot Peg and Toe Pegs you want, and we will build the Controls for you. This gives you a complete set of custom Controls tailored to your style that includes everything you need for installation. (see pages 12-15 for Peg selections)

## QUALITY CONSTRUCTION

**MODELS TO FIT 1948-PRESENT  
BIG TWIN HARLEYS & CUSTOMS**

**NO Shake. NO Rattle. NO Rust. NO Maintenance.**

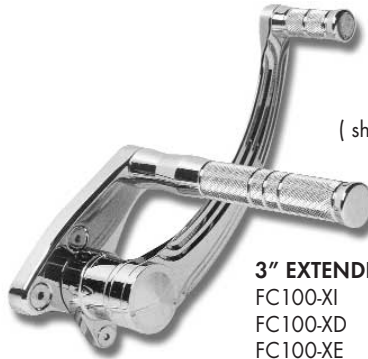

## FOOT PEG SELECTIONS

( SEE PAGES 12-15 FOR COMPLETE PEG DESCRIPTIONS )

## 84-99 SOFTAIL & CUSTOMS

## HANDLE BARS

Superior construction and unequaled quality made in the USA. WILD 1 CHUBBYS® are 1 1/4" in diameter, pre drilled for internal wiring, with polished welds, are diamond knurled and feature an unparalleled show chrome finish. They work with stock and most custom; risers, top clamps, controls and grips. Each model is designed with fluid bends at precise angles to provide the optimum riding position for the utmost in rider comfort and control. Best bends, best fit, best feel, best look, best ride.

Is suicide the answer? If it is, you are talking about the Accutronix new Suicide Shifter setup. This wicked shifter is an alternative to the transmission mount jockey shift setup. It comes complete with shifter handle, tribal shift lever, billet logo medallion, and shift linkage. Constructed of 6061 billet aluminum, available show polish, chrome, or black anodize. Looks outstanding with Tribal Forward Controls and Grips.
