### 6" SPIKED RISERS

**\*GP Designs 6" spiked risers. A very unique set of risers**

These are hand crafted by George Pacheco, owner of GP Designs. The risers begin with 6061T-6 aluminum. This patent pending design gives the illusion of risers that appear to be pressed right through the triple tree. The 12-piece assembly not only creates a clean appearance with its show quality chrome, it also adds flowing symmetry while offering the full strength of a standard riser.
