FOR IMMEDIATE RELEASE
9 AM PST, Aug. 15th, 2006

ENERGY ONE PERFORMANCE CLUTCHES HIT THE ROAD WITH FORCE!

KMS Sportgroup Inc. is proud to announce the addition of the Energy One Performance Clutch line to their growing parts and accessory program for Canada.

Energy One High Performance Clutch Products have for over 30 years been on the leading edge of clutch pack design and performance in North America.

Used by many of the premier builders across the country these 100% Made in the USA clutches offer the optimum choice for replacement clutch plates and components.

The Energy One/ KMS Sportgroup Inc. program will offer clutch plates for virtually every Harley Davidson Big Twin or Sportster

~ MORE ~

Energy One Clutch feature clutch plates made of 6061-T6 aluminum, or high tempered American steel with Energy One race proven Kevlar friction material. Space Age adhesives, and maximum depth groove patterns, produce optimum oil circulation, with premium heat dissipation, making Energy One clutch plates some of the most reliable in the industry today!

All Big Twin Kits containing both steel and friction plates have pre-set clutch pack heights for quick, convenient installation and offer the ultimate in reliability under all street or race conditions!.

Custom applications and requests are welcomed, and the challenge of your special needs are our specialty.

Big ponies need Energy One Clutches to get the power to the ground!

When only the best will do!
